

A responsible health model that adds value to society

riberasalud.com

Innovative solutions to improve health and patient experience

Ribera is a business group that has been a public and private healthcare service provider since 1997. Its aim is to transform the way of working and innovate healthcare management.

The group manages hospital projects and specialised healthcare services in Spain, Latin America, Europe and the Middle East. It has a University Nursing School and a Professional Training Centre, a purchasing centre, a laboratory division, a technology company and a foundation that is dedicated to research, training and health promotion.

Its main shareholder is Vivalto-Santé, the third largest private healthcare group in

France, operating 50 hospitals and clinics in France, in alliance with the founding management team of the Ribera group. Vivalto-Santé and Ribera share the same values and work philosophy based on value-based medicine through a collaborative model that involves their professionals, and combines business and clinical vision to offer excellent services to citizens.

Its social commitment remains clear through multiple initiatives that, in line with the Sustainable Development Goals and the 2030 Agenda, provide value to both current and future society and contribute to the sustainability of healthcare systems.

More than 25 years of national and international experience

 13 HOSPITALS (2 UNIVERSITY)	 1.825 BEDS	 14 PRIMARY CARE CENTRES	 60 OUTPATIENT CLINICS	 +1.000.000 PATIENTS PER YEAR	 91% PATIENT SATISFACTION INDEX
